EDUCATION

Amity University Gwalior, Madhya Pradesh

Aug 2022 – June 2026

- B.Tech in Computer Science and Engineering,
- Relevant CourseWork: Data Structures & Algorithms, OOP, DBMS.

CGPA: 7.36

WORK EXPERIENCE

Infosys SpringBoard 7.0 - Virtual Intern

[Live Demo](#) | [Link](#)

Project: PolicyGPT - Government Policy & Public Scheme Intelligence Platform | Team Leader

- Developed PolicyGPT, centralized digital platform that helps users discover, understand and manage government policies and public welfare schemes.
- Implemented policy search and information modules to help users quickly find relevant government schemes and policy details.
- Worked with **React, Node.js, Express.js, REST APIs and MongoDB/Mongoose**, including JWT-based authentication and role-based access control.

SKILLS

- **Languages:** C, C++, Python, JavaScript, TypeScript
- **Front-end:** HTML5, CSS3, Tailwind CSS, Bootstrap, React.js
- **Back-end / Frameworks:** Node.js, Express.js, JWT Authentication, RESTful APIs
- **Databases:** MySQL, MongoDB, Redis
- **Tools & Concepts:** Git, GitHub, VS Code, Postman, NPM, Parcel.
- **Other:** Stripe, Prisma, Clerk

PROJECTS

Learnova-LMS

[GitHub](#) | [Live Demo](#)

Tech Stack: React.js | Node.js | Express.js | MongoDB | REST APIs | Stripe

- Developed a full-stack Learning Management System using **React.js, Node.js, Express.js, and MongoDB**, providing separate functionality for Admin, Instructor, and Student roles.
- Implemented secure JWT-based authentication and role-based access control to protect user accounts and restrict access to authorized features.
- Developed course management, student enrollment, and assignment modules to support the complete learning workflow.

ConnectHub – Real-Time Chat & Collaboration Platform

[GitHub](#) | [Live Demo](#)

Tech Stack: React | Node.js | Next.js | TypeScript | Prisma | Clerk

- Developed a real-time chat and collaboration platform with server and channel management. Implemented secure authentication, direct messaging, and role-based access control.
- Added real-time voice and video calling, file sharing, and invite-based community management to enable seamless collaboration.

Jarvis – AI Virtual Assistant

[Github](#) | [Live Demo](#)

Tech Stack: Python | Speech Recognition | Text-to-Speech | NLP

- Developed an AI-powered virtual assistant using **Python, NLP, and speech recognition** for real-time voice-based interactions.
- Integrated text-to-speech, command execution, web search, application control, and WhatsApp messaging features.

CERTIFICATES

- **Technology Job Simulation** - Deloitte Forage | [Link](#)
- **Front-End Software Engineering** – Skyscanner Forage | [Link](#)
- **Oracle Cloud Infrastructure** – AI Foundation Associate | [Link](#)
